

BOTANY 100: CONCEPTS OF BOTANY

This course: 1) does satisfy the SBCC GE requirement in Natural Sciences (p.82 2013-14 SBCC Catalog); 2) does satisfy SBCC IGETC transfer requirement for the Biol. Sciences (p.98 2013-14 SBCC Catalog); 3) is transferable to UC & CSU as a GE lab science course; 4) does not apply toward the SBCC biology major.

Instructor: Dr. Matt Kay

Email: mckay@pipeline.sbcc.edu; **Phone:** (805) 730-5172

Office hours: M, W 12:30-1:30; T 10:30-1:30 in EBS 307; or email for appointment

Lecture: Monday and Wednesday, 11:10- 12:30, EBS 309

Labs: (all sections meet in EBS 201)

CRN 61764: Tues 11:10 – 2:15pm

CRN 61494: Weds 7:50 - 10:55am

CRN 61493: Tues 2:30 – 5:35pm

Welcome to Botany 100!

In this course we will explore the fascinating biology of plants and their close relatives. In these organisms, we will discover some of the most fascinating adaptations and stories found in biology. You need plants: your life depends upon them directly, and they enrich your quality of life immeasurably – if you don't believe it now, you soon will! If we are successful on our journey together, your view of plants – and your relationship with them - will forever be changed. For this journey we will need a few tools:

Textbook (recommended): *Botany: An Introduction to Plant Biology, 5th edition* (Mauseth). Available in the bookstore. Use the text to *prepare* for and review lecture material. Information in the text will support lecture material (see page 5).

Supplemental books (recommended): 1) *Dictionary of Root Words and Combining Forms* (Borror)

Lab notebook (required): You must keep detailed notes of information presented (i.e., in pre-lab lectures), as well as your observations and activities during lab. You will need these notes to succeed on lab quizzes. I recommend a composition-style notebook (~10" x 7.5").

Your attitude (positive, required): If you wish to sit passively and collect a grade, you are in the wrong class. I expect students to be prompt, courteous, and engaged.

Pipeline: I will use Pipeline to communicate with you via email, so you should check Pipeline regularly for updates, reminders, or schedule changes. To log into Pipeline: Go to the SBCC homepage (www.sbcc.edu) and click on "Pipeline". If you have difficulty accessing or using Pipeline, technical support is available at <http://www.sbcc.edu/support/contact/> or via phone (805 965-0581 x2949).

Class website: Course-related documents, including the syllabus, lecture outlines and quiz and exam keys will be posted on my course website at: <http://www.biosbcc.net/kay/> This will be an indispensable resource for you during this course – visit it frequently!!

Course Requirements and Expectations

You are required to enroll in *and attend* both the lecture and lab portions of this course to receive course credit. If you have a habit of skipping class you will NOT succeed in this course. I expect you to be present at all lectures and labs. If you cannot attend a lecture, it is your responsibility to seek out a fellow student (or me) and get notes or other materials. Missing lab is simply not an option – if you have a conflict find me in advance. If you miss a lab, you will still need to complete the lab exercise(s) and make up the quiz – and this will only be allowed with an excused absence due to illness, family emergency, or circumstances cleared in advance with me.

Disruptive behavior will not be tolerated in lecture or lab. I expect you to behave as an adult – if that is confusing here are some firm ground rules:

- No cell phones, ipods...ipads...or whatever new electronic device will be invented and mass marketed to you between now and the end of the semester. Whatever it is, turn it off.
- Arrive on time, don't shuffle for an early exit.
- Do not talk while the instructor or other presenters (it will be you at some point this semester...) are addressing the class...unless of course you have a question for the class.
- If you think you might be behaving disruptively, you probably are.

ASSIGNMENTS AND GRADING

Assignments, points, and % of final grade

Activity	Points	% of final grade	Comments
Lecture (525 pts)			
Midterm 1	100	11.75%	Drop lowest midterm exam score, or if final is lowest then divide by 2 (i.e., final =11.75%) and keep 3 mid's *5 quizzes, open <u>notebook</u> , (not "open lecture notes")
Midterm 2	100	11.75%	
Midterm 3	100	11.75%	
Final exam	200	23.5%	
Quizzes 1-5*	5 @ 25 each = 125	14.75%	
Lab (325 pts)			
Attendance, note-book, participation	15@10 each = 150	17.5%	Awarded each week during lab (noted by instructor)
Weekly Lab Quizzes	10 @15 each = 150	17.5%	
Local flora ID exam	25	3%	Open notebook and "open plant press" (in wk 13 lab)
Totals	850 pts	100%	

Final grades for semester:

≥92% A; 91-89% A-; 88-87% B+; 86-84% B; 83-80% B-; 79-77% C+; 76-70% C; 69-60% D; ≤59% F

GRADED ACTIVITIES – LECTURE

Midterm and final exams

Midterms and the final exam will be comprised of multiple choice (“fill in the bubble”), fill-in-the-blank, True/False, diagrams, and short-answer written questions. Bring a *Scantron* form and pencil to class on the day of midterm exams. These are half of your grade – come prepared to perform! They will be challenging and will draw directly from lecture material (see *Notebooks and organization*, below).

Lecture quizzes

Lecture quizzes will be given periodically (see schedule for dates), and will be administered at the beginning of lecture. You will need ~20 minutes to complete quizzes. Students may use their personal notebooks to respond to questions, but no other materials (posted lecture notes, text book, internet, etc...) may be consulted. Referencing sources other than your personal notebook (**repeat: you may NOT use posted lecture notes**) will be considered cheating and you will receive a zero for that quiz (and incur my eternal wrath). Questions on quizzes will be similar to those asked on exams – so use quizzes as practice exams and study guides. You will need pen *and* pencil and paper to complete each quiz – but those tools should be brought to every lecture...right?

Quizzes are intended to reward good attendance, detailed notebooks, and staying on top of the material. In addition, even with open notes you will need to respond quickly and think on your feet (i.e., I will not ask you to simply transcribe your notebook). If you come to class, pay attention, and take good notes (a very important skill) you should enjoy and do great on quizzes. If not...you can only blame yourself!! Keep a tidy notebook that you bring to every class. The lowest quiz score will be dropped. **There will be no opportunity to make-up missed lecture quizzes.**

Lecture notebooks and organization

Making a reliable record of observations and events is an essential skill in science, as well as most other professions. To succeed in this class you will need to keep records/notes of lectures in two critical ways:

- 1) Lecture notes posted online. After each lecture I will post my notes. You should print these and keep them in a binder. Alternatively, if you prefer to not consume paper you can compile these in a folder on your personal computer.
- 2) Your personal lecture notebook. This will contain notes you take during lecture. Many drawings, figures, and anecdotes that I present in lecture will not appear in the posted lecture notes (and this is intentional!), but this material will figure prominently on exams and quizzes.

Although I will not directly grade your personal notebooks and organization of lecture notes, these are critical for success – you will not perform highly if you are unorganized. This is especially true for lecture quizzes, which are open note (personal notebooks only).

GRADED ACTIVITIES – LAB

The lab component of this class is mandatory and you can not pass this class without passing the lab component. Labs are held every week at the time and place noted on page 1 of this syllabus. Lab sections are full: you must attend the lab for which you are enrolled, except under extenuating circumstances and with my approval.

Lab notebook

You are required to maintain a lab notebook that contains: 1) complete record of information that I present during each lab, as well as; 2) detailed notes and drawings of the observations you make during lab activities. I recommend a composition-style notebook (~10 x 7.5 inches).

Lab attendance and exercises (completed in your lab notebook)

Your attendance and participation in weekly lab exercises will be graded in lab, the day that each lab is completed!! Do NOT skip labs – you'll miss 25 possible points (lab quiz + lab exercise) each time you do. If you must miss a lab, clear it with me and attend an alternate section.

Lab quizzes

12 lab quizzes will be administered on predetermined dates throughout the semester. Each is worth 15 points. ***You will be allowed to drop your two lowest quiz scores, but there will be no opportunity to make-up missed lab quizzes.*** Quizzes will cover material from the previous week's lab. Keep thorough notes and study them! If you arrive late, you will have only the time that remains of the 10-15 minute quiz period to complete the quiz. Arrive on time for labs!

Local Flora identification

Each week in lab, I will bring in 2-3 plants that you will: a) draw, b) preserve in a plant press as a lab group. You will have an open note (**BUT NOT OPEN plant press**) ID quiz on these ~20 specimens during lab week 14. The details of this quiz will be explained week 12/13 in lab.

Academic Honesty

Academic dishonesty will not be tolerated in this course. SBCC has a strict policy on academic honesty and I have zero tolerance for any act of academic dishonesty. Academic dishonesty includes but is not limited to: (1) Cheating on an exam or quiz (e.g. looking at or copying from somebody else's exam, talking during an exam, using cell phones or texting, bringing prepared "cheat sheets", using translators or dictionaries); (2) Copying someone else's work or answers on any assignment; (3) Plagiarism (failing to properly cite material produced by others, or intentionally turning in work that is characterized as one's own).

DSPS Students

Accommodations for Students with Disabilities:

Disabled Student Programs and Services (DSPS) coordinates all academic accommodations for students with documented disabilities at Santa Barbara City College. If you have, or think you might have, a disability that impacts your educational experience in this class please contact DSPS to determine your eligibility for accommodations. DSPS is located in the Student Services (SS) Building, Room 162. Their phone number is 805-730-4164.

If you are already registered with DSPS please submit your accommodation requests via the 'DSPS Online Services Student Portal' as soon as possible. Once submitted and confirmed please visit with me about your specific accommodations.

Please complete this process in a timely manner to allow adequate time to provide accommodation.

COURSE SCHEDULE

	Date	Lecture	Reading (Mauseth)	Lab	
1: Matter, cells, and energy	1 Jan 16 Jan 18	- NO CLASS – HOLIDAY (MLK Day) - Life on Earth and plant cells	Ch 1 (lecture in lab) Ch 3	Lab 1*: Scientific method and adaptation <i>*contains lecture material for MT#1</i>	
	2 Jan 23 Jan 25	- Biochemistry I: atoms, molecules, properties of H ₂ O, nutrients - Biochemistry II: Biomolecules	Ch 2 Ch 2	Lab 2: Microscopes and cells	
	3 Jan 30 Feb 1	- Cellular Respiration Quiz 1 (Jan 16 – Jan 25) - Photosynthesis I: ATM [CO ₂ /O ₂]	Ch 11 Ch 10	Lab 3*: Lipids and soap <i>*contains new lecture material for MT#1</i>	
	4 Feb 6 Feb 8	- Photosynthesis II: light reactions - Photosynthesis III: C fixation / light-independent reactions	Ch 10 Ch 10	Lab 4: Aerobic and anaerobic respiration	
	5 Feb 13 Feb 15	- Midterm 1 (Jan 16 – Feb 8) - 1° tissues: leaves	Ch 5 & 6	Lab 5: Osmosis and diffusion	
2: Growth, form, function	6 Feb 20 Feb 22	- NO CLASS – HOLIDAY (GW B'day) - 1° tissues: stems	Ch 5	Lab 6: Leaves (read Ch 5, 6)	
	7 Feb 27 Mar 1	- 1° tissues: roots - Xylem and phloem function Quiz 2 (Feb 15 – Feb 27)	Ch 7 <i>Consult lecture notes</i>	Lab 7: Primary tissues of stems and roots	
	8 Mar 6 Mar 8	- 2° tissues: wood and bark - Secondary metabolites	Ch 8 <i>Consult lecture notes</i>	Lab 8: Secondary tissues	
	9 Mar 13 Mar 15	- Midterm 2 (Feb 15 – Mar 8) - Algae, the plant-like protists	Ch 19; <i>lecture notes!</i>	Lab 9: Algae (<i>Beach field trip, dress appropriately</i>)	
3: Evolution and diversity	10 Mar 20 Mar 22	- Bryophytes and seedless vascular plants (ferns etc...) - Geologic record, plant evolution Quiz 3 (Mar 15 – Mar 20)	Ch 20, 21 Ch 19; <i>lecture notes!</i>	Lab 10: Spore-producing plants	
	11	SPRING BREAK – NO CLASS (March 27 – April 1)			
	12 Apr 3 Apr 5	- Gymnosperms - Angiosperms I Quiz 4 (Mar 15 – Apr 3)	Ch 22 Ch 9, 23	Lab 11: Gymnosperms (<i>Campus field trip – dress appropriately</i>)	
4: Ecology and humans	13 Apr 10 Apr 12	- Angiosperms II - Seeds: adaptations and ecology	Ch 9, 23 <i>Consult lecture notes</i>	Lab 12: Angiosperms I: flowers	
	14 Apr 17 Apr 19	- Midterm 3 (Mar 15 – Apr 12) - Selective breeding, GMO's, and The Botany of Desire	<i>None - consult lecture notes</i>	Lab 13: Angiosperms II: fruits Prepare for ID exam in Wk 14	
	15 Apr 24 Apr 26	- Fungi - Plant communities I	Ch 24 Ch 26	Lab 14*: Fungi <i>*contains lecture material for Exam. Local flora ID quiz</i>	
	16 May 1 May 3	- Plant communities II - Ecosystem services Quiz 5 (Apr 19 – May 1)	Ch 27 Ch 27	Lab 15: Rattlesnake Canyon field trip	

Final Exam: Monday, May 8; 11:00am-1:00pm (EBS 309)

Official SBCC course content and objectives for Botany 100

Student learning outcomes: Students who successfully complete this course will be able to:

1. Describe the biology of plants including their anatomy, physiology, and their ecological and organismal diversity.
2. Describe the biology of plant-like organisms including their anatomy, physiology, and their ecological and organismal diversity.

Course Content and Scope:

Science and the scientific method, the philosophy and role of science in society.

Introduction to eukaryotic, bacterial, and archaean cell structure and function

Tissues of the plant body: meristematic tissues, primary tissues, secondary tissues, stems, roots, leaves, flowers, fruits, and seeds.

Pollination, fertilization, fruit and seed set, and seed germination

The chemical and physical properties of the water molecule

Water and food transport in the plant body.

Processes of photosynthesis and respiration

Mechanisms of heredity, and Mendelian genetics

Plant growth regulating substances

Diversity of plant groups on Earth

Course grade sheet

Here is a “scorecard” to help you keep track of your grade in the course (needless to say, you should keep the assignments themselves as references for studying). Please do not ask me to calculate your grade (you should never do this in school or life – it implies that you are unorganized, incapable, lazy, or some combination of these attributes.)

Lab Assignments

1) ___/10

2) ___/10

3) ___/10

4) ___/10

5) ___/10

6) ___/10

7) ___/10

8) ___/10

9) ___/10

10) ___/10

11) ___/10

12) ___/10

13) ___/10

14) ___/10

15) ___/10

Lab Quizzes

1) ___/15

2) ___/15

3) ___/15

4) ___/15

5) ___/15

6) ___/15

7) ___/15

8) ___/15

9) ___/15

10) ___/15

11) ___/15

12) ___/15

Lecture Quizzes

1) ___/25

2) ___/25

3) ___/25

4) ___/25

5) ___/25

Midterm Exams

1) ___/100

2) ___/100

3) ___/100

Final Exam

1) ___/200

Local flora ID (wk 14, in lab)

1) ___/25
